DETAILED ACTION

Allowable Subject Matter

- 1. Claims 9-27 are allowed.
- 2. The following is an examiner's statement of reasons for allowance. The prior art does not disclose or suggest "the insulation being a layer covering only precisely the region between the outer electrodes wherein the insulation is applied in a tension-free manner exactly in the region between the outer electrodes and covering at least one edge of the piezoelectric actuator with constant thickness" in combination with the remaining claim elements of claim 1. The prior art does not disclose or suggest "the insulation being a layer covering only precisely the region between the outer electrodes, and in a tension-free manner, the method comprising the step of melting, vulcanizing, or sintering the band in place in a bubble free manner" in combination with the remaining claim elements of claim 16. The prior art does not disclose or suggest "the insulation being a layer covering only precisely the region between the outer electrodes, wherein the insulation is applied in a tension-free manner exactly in the region between the outer electrodes and covering with a uniform layer thickness, including the same uniform layer thickness at at least one edge of the piezoelectric transducer" in combination with the remaining claim elements of claim 27.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments, see amendment, filed 3/22/2007, with respect to claims 9-27 have been fully considered and are persuasive. The 35 U.S.C. 103 rejections of claims 9-26 have been withdrawn.
